EDUCATION

Gokhale Institute of Politics and Economics, Pune

September 2025 – May 2029

Bachelor of Science in Economics (Data Science)

- Currently maintaining a CGPA of 8.7/10 based on completed semesters.

ACADEMIC PROJECTS

Seasonal Demand Dynamics

March 2026 – April 2026

Microeconomics

- Analysed seasonal demand shifts in the clothing industry, examining consumer behaviour, price sensitivity, and the trade-off between early purchases and end-of-season markdowns
- Conducted primary research through a 60-response consumer survey (Google Forms) and semi-structured interviews with 10 retail stores on FC Road, Pune; supplemented with secondary literature on forecasting models and supply chain flexibility
- Produced a research paper identifying dual market segmentation, price-insensitive and price-sensitive consumer groups, and the role of artificial scarcity in fast fashion demand dynamics; co-authored with a team of 6

India's Employment and Unemployment Indicators (2013–2022)

March 2026 – April 2026

Programming with R

- Analysed a decade of India's labour market data from MOSPI's Periodic Labour Force Survey (PLFS), examining trends in unemployment, female LFPR, worker population ratio, and urban-rural employment disparities
- Used R for univariate and bivariate statistical analysis including descriptive statistics, correlation matrices, simple linear regression, and data visualisation (line charts, bar charts, scatter plots)
- Key findings included a near-perfect correlation ($R = 0.9994$) between female LFPR and female WPR, a COVID-19 spike in unemployment to 7.9% in 2020, and a structural urban unemployment premium of ~ 3.2 percentage points above rural rates

A report on Incentivizing Transition of Census Towns to Statutory Towns: For The 16th Central Finance Commission of India by The World Bank

March 2026 – April 2026

Intermediate Statistics

- Reviewed and critically analysed a 2025 World Bank study prepared for India's 16th Central Finance Commission, examining the governance and fiscal gap between Census Towns and Statutory Towns
- Evaluated the study's mixed-methods approach, statistical findings (185% CT growth vs 9% ST growth, 2001–2011), and methodological limitations including data staleness, selection bias, and social desirability bias
- Produced an individual research report with a structured review, methodology critique, and policy conclusions; submitted to Prof. Anurag Asawa, GIPE Pune

An Estimation of Potential Fine-Based Revenue from Traffic Violations in PMC

November 2025 – December 2025

Statistics

- Conducted a field observational study across 6 locations in Pune to estimate potential fine-based revenue from traffic violations including helmetless driving, red light jumping, overloading, and illegal parking
- Applied Poisson distribution modelling ($\lambda = 2430.9$) and basic statistical methods using spreadsheet tools to analyse 24,309 observed violations across weekdays and weekends

- Estimated a total potential fine revenue of ₹2.57 crore and produced a policy-oriented report recommending allocation toward road safety infrastructure, traffic management, and enforcement; co-authored with a team of 17

SKILLS

Technical: Python, R, SQL, Java, Excel, HTML
Software: MS Office, VS Code, Cursor, GitHub, Canva, Adobe, TouchDesigner
Languages: English, Hindi, German

EXTRACURRICULAR & VOLUNTEERING

The 8.10 Newsletter

July 2026 – Present

Head of Design

- Lead and manage the design team, overseeing the visual direction of all social media posts and newsletter layouts
- Delegate design tasks across team members, ensuring timely delivery of content and communication with cross-functional teams

MacroPru Musings

December 2025 – Present

Designer

- Design and format the monthly finance newsletter/magazine, translating complex economic content into clean, readable layouts
- Maintain visual consistency across editions to strengthen the publication's identity

The 8.10 Newsletter

September 2025 – Present

Designer

- Create engaging social media graphics and newsletter layouts, contributing to the organisation's online presence and readership growth
- Demonstrated consistent performance and creativity, resulting in promotion to Head of Design.

Environment Conservation Association

April 2025 – Present

Volunteer

- Actively participate in cleanliness campaigns, and environmental awareness initiatives.
- Educated communities on reducing and recycling plastic, encouraging the adoption of sustainable alternatives such as cloth bags
- Spread awareness among students about the hazards of e-waste and responsible disposal of electronic devices through college seminars and awareness sessions
