EDUCATION

Gokhale Institute of Politics and Economics, Pune

September 2025 – May 2029

Bachelor of Science in Economics (Data Science)

- Currently maintaining a CGPA of 9/10 based on completed semesters.

EXPERIENCE

Data Science and Maritime Operational Analytics Intern

May 2026 – Present

BOSS by Blue Water (Blue Water Trade Winds Pvt. Ltd.), Dehradun - Hybrid

- Worked with live fleet data from the BOSS maritime platform across 700+ vessels and 44 data fields; cleaned messy real-world data including K-suffix costs, HTML-encoded remarks, and null ETAs
- Built performance and fouling risk scoring logic driven by time loss %, voyage cost overruns, ETA delays, and months since last dry dock; surfaced insights including 279 ships in CP claim exposure, ~\$74M/month in idle cost, and propeller maintenance candidates with a 13× ROI at 28-day payback
- Designed a full six-agent AI system specification covering CP claim detection, CII triage, bunker risk monitoring, maintenance scheduling, fixture vetting, and natural language fleet querying
- Built a constants reference layer so every threshold and figure in the spec traced back to verified snapshot data; presented findings to senior management
- Developed a web-based marine weather forecasting map for oil tanker vessels, integrating wind, wave, swell, and pressure data into a single combined view to support voyage-level decision-making

ACADEMIC PROJECTS

Seasonal Demand Dynamics

March 2026 – April 2026

Microeconomics

- Analysed seasonal demand shifts examining consumer behaviour, price sensitivity, and the trade-off between early purchases and end-of-season markdowns
- Conducted primary research through a 60-response consumer survey and semi-structured interviews with 10 retail stores on FC Road, Pune; co-authored research paper identifying dual market segmentation and the role of artificial scarcity in fast fashion demand dynamics

India's Employment and Unemployment Indicators (2013–2022)

March 2026 – April 2026

Programming with R

- Analysed a decade of India's labour market data from MOSPI's PLFS, examining unemployment, female LFPR, worker population ratio, and urban-rural employment disparities
- Used R for univariate and bivariate analysis including descriptive statistics, correlation matrices, linear regression, and data visualisation; key findings included $R = 0.9994$ correlation between female LFPR and WPR, a COVID-19 unemployment spike to 7.9% in 2020, and a structural urban unemployment premium of ~3.2 percentage points above rural rates

A report on Incentivizing Transition of Census Towns to Statutory Towns: For The 16th Central Finance Commission of India by The World Bank

March 2026 – April 2026

Intermediate Statistics

- Reviewed and critically analysed a 2025 World Bank study prepared for India's 16th Central Finance Commission, examining the governance and fiscal gap between Census Towns and Statutory Towns
- Evaluated the study's mixed-methods approach and statistical findings (185% CT growth vs 9% ST growth, 2001–2011); identified methodological limitations including data staleness, selection bias, and social desirability bias; produced individual research report with structured review and policy conclusions

An Estimation of Potential Fine-Based Revenue from Traffic Violations in PMC

November 2025 – December 2025

Statistics

- Conducted field observational study across 6 Pune locations; applied Poisson distribution modelling ($\lambda = 2430.9$) across 24,309 observed violations to estimate ₹2.57 crore in potential fine revenue
- Produced a policy-oriented report recommending allocation toward road safety infrastructure

SKILLS

Programming: Python, R, SQL, Java

Data & Analytics Statistical modelling, data cleaning, scoring model design, Excel

Tools: VS Code, Cursor, GitHub, MS Office, Canva, Adobe

Languages: English, Hindi, German

EXTRACURRICULAR & VOLUNTEERING

Vice President

July 2026 – Present

CANDID - Photography Club

- Promoted to Head of Design; lead the design team overseeing visual direction of all social media posts and newsletter layouts, delegating tasks and coordinating with cross-functional teams

Head Of Design

July 2026 – Present

The 8.10 Newsletter

- Promoted to Head of Design; lead the design team overseeing visual direction of all social media posts and newsletter layouts, delegating tasks and coordinating with cross-functional teams
- Previously contributed as Designer creating engaging social media graphics and newsletter layouts

Designer

December 2025 – June 2026

MacroPru Musings

- Design and format the monthly finance newsletter, translating complex economic content into clean, readable layouts while maintaining visual consistency across editions

Volunteer

April 2025 – Present

Environment Conservation Association

- Led college seminars on e-waste disposal and plastic reduction; participated in cleanliness campaigns and community awareness initiatives
